

LMC tour to showcase new offerings

By HP STAFF

BENTON HARBOR — Information about on-campus living and a tour of the new student activity center will be included in an informational open house from 11 a.m. to 1 p.m. Feb. 15 at the Napier Avenue campus of Lake Michigan College.

The event is open to anyone who wants more information about LMC. The free event will include: tours of the model residence hall suite, with the residence hall opening this fall; tours of the recently renovated science labs and health care career training facilities; financial aid workshops; a chance to talk with advisers and faculty about the 100-plus program, certificate and degree options available to students; and information about student life.

“Because choosing a college is such a big decision, we want our future students to see first-hand all of the new academic programs, services and features available to them at Lake Michigan College,” said LMC Director of Admissions Doug Schaffer. “We will have a full team of staff and faculty available to answer questions, assist with the

application process, and show people around the campus.”

Included in the campus tour will be the model residence hall suite that repre-

sents what students will experience if they choose to live on campus, beginning this fall. The units will include a full kitchen, washer and dryer, free Wi-Fi, a 42-inch flat panel television, furniture, free utilities, and access control into the suites and individual bed-

rooms.

People planning to attend the open house can pre-register at www.lakemichigancollege.edu/openhouse. For more information call 927-8626 or send an email to admissions@lakemichigancollege.edu.
