

## A LESSON IN THE 3 R'S AT LMC: REDUCE, REUSE AND RECYCLE

Don Campbell / HP staff

**Lake Michigan College student Matthew Buller joins volunteers as they collect unwanted appliances, electronics and household hazardous waste dropped off by Berrien County residents Wednesday during the fifth annual Reduce, Reuse, Recycle Day at LMC's Napier Avenue campus. Sponsored by the county and the college, the program provides a place to drop off a wide range of material for recycling or proper disposal. In 2013, more than 12 tons of consumer electronics and eight tons of household hazardous waste were collected.**
